

September 22, 2021

Monique Marshall  
Arimo City Clerk  
PO Box 61  
Arimo, ID 83214

Subject: Ordinance No.        ord.\_026 ARIMO (CITY)

Dear Ms. Marshall:

The Tax Commission has received and reviewed the above referenced action. This review cannot be completed and recognized because the following deficiencies were found:

- The legal description provided is insufficient because it is in an abbreviated form that references a county tax number. Please provide a full metes and bounds legal description for the subject property.

The map provided is insufficient because it is illegible. Please provide a map that references the public land survey system (PLSS) and matches the legal description, such as a survey map.

Please make these corrections, have the ordinance re-recorded, and re-submit to the State Tax Commission in compliance with I.C. 63-215 and IDAPA Rule 35.01.03 255.

Before this annexation/de-annexation can be processed for the 2022 year, the deficiencies listed need to be corrected. Failure to correct these deficiencies will result in the above referenced action not being recognized by the Idaho State Tax Commission, pursuant to its authority under Idaho Code Section 63-215. Thank you for your attention to the required legal descriptions and mapping requirements. If you have any questions, please call us at (208) 334-7750.

Find current year information about taxing district change requests at the Current Status Web page. Please visit <http://tax.idaho.gov/i-1069.cfm>.

Sincerely,

Geographic Information Systems Division
